Old Wind Slab Avalanche South of Cooke

COOKE CITY Cooke City 3/14/2025 Code SS-N-R2-D2-U Elevation 9600 Aspect E Latitude 45.02020 Longitude -109.93800 Notes

We were split boarding south of Cooke City today, up to terrain around 10'000', and finding good snow stability.

Weather was mostly cloudy in the am, partly cloudy in pm. Light winds from the SW.

No fresh avalanche activity observed. Attached is a photo of the only sign of a recent avalanche we could find. (an old crown on an East <u>aspect</u> at 9600').
